# Environmental Spill Kits

*Inexpensive response - specially designed for the logging industry*

*Breg's Spill Kit in action - stop the leak, contain the spill and soak up the fluids. Quick and easy.*

*Kit contents are easy to see and grab in the clear vinyl zipper bag.*

*Simply reseal the bag when you're done.*

*Order refill products to replace what you use.*

Regulations that protect the environment effect those of you working in the logging industry. Fines from federal, state and local agencies can cost you a bundle.

Breg's Spill Kits help you reduce the potential cost and liability of accidental fluid spills and leaks.

Customized spill kits are designed to soak up petroleum based spills - motor oil, diesel, hydraulic fluid and antifreeze from your trucks, skidders, chippers and other machines.

Kits packaged in clear, vinyl, zipper bags fit easily in your truck.

Breg has a variety of Spill Kits in stock waiting for your order or we can *customize a kit* for you to suit your needs and budget.

The logging spill kit includes the following:

-  #9040-FRA Combo Vehicle Spill Kit
- 10 - Oil Only Mats, 17" x 19"
- 10 - Universal Mats 17" x 19"
- 3 - Basic Snakes, 3" x 48"
- 1 - Set of 6 Wooden Plug, 3 sizes
- 1 - 3B Putty, .5lb.
- 2 - Clear Disposal Bags

Packaged in a clear, vinyl, zipper bag.

*An incredible safety measure for only \$38.00*

*Ellen M. Moore, Director of Operations at Moore Trucking, Inc., writes: ...Our company has been using your spill kits since May 1998. We require each truck to carry one... the cost of these kits are far outweighed by the cost of environmental cleanup fees! We appreciate the quality [Breg] puts into these kits and we will continue to require one in every truck we operate.*
